Description of Services:

Club Z! delivers the individualized instruction students need to meet their educational goals. Club Z! provides services for both reading and mathematics and specializes in working with all students, including students with disabilities, and English Language Learners. Club Z! Offers two programs of instruction. Parents/guardians who choose Club Z! In-Home Tutoring Services will have highly qualified tutors travel directly to the home of each student for one-on-one instruction, so parents/guardians are not required to provide transportation to and from a learning center or school site. Parents/guardians also have the option to have their student instructed in a small group setting with no more than 5 students per instructor under the Club Z! Choice program. Club Z! Choice sessions are grouped by age, grade, and academic needs. Club Z! uses the Alaska Performance Standards and each student's local classroom curriculum to develop a customized program for each student. Parents/guardians of students who receive tutorial services in the home with Club Z! In-Home Tutoring Services are updated on their child's progress at the conclusion of each session, and parents/guardians of students enrolled in Club Z! Choice can expect to be updated on their child's progress weekly. Tutoring sessions are provided at times convenient for parents/guardians and average between 2 to 4 sessions per week dependent on student need. In addition, Club Z! does not require parents/guardians to provide any instructional materials. Through the use of certified teachers and degreed professionals whom are continually updated through Club Z! professional development training on the latest findings of the National Council of Teachers of Mathematics and the National Reading Panel, Club Z! instructors monitor each student's progress during every tutorial session. For each specific skill from the Alaska Performance Standards, Club Z! utilizes teaching methods that lead students from dependence on others to solve problems to solving problems independently with confidence. Students who complete the Club Z! program can expect to show an average increase of one full grade level. Club Z! assists each student in reaching their full academic potential – so join the Club Z! program today!

Program Description:

- Number of years in business providing supplemental services: 7

- Providing service in content areas: *(Check all that apply)*
 Reading (and Writing) Mathematics Science

- Grade levels in which services will be available: K-12

- Specific student populations served: *(Check all that apply)*
