## Provider Description:

Kodiak Island Borough School District offers supplemental educational services to your child in the core subjects of reading and mathematics. Through innovative on-line technology and programming as well as face-to-face instruction, the District offers a learning opportunity for your child that will increase his/her success and aptitude in both reading and math. And not only that, but your child will truly develop an interest in learning. Our instruction provides tried and true, scientifically-based, best practices in teaching and learning. Your son or daughter will truly engage in his or her learning, routinely celebrating progress through the program's monitoring components. An on-site, friendly instructor is provided to guide the learning process. S/he will encourage your student daily. Nutritional snacks will provide the energy for the one hour of after-school instruction, and appropriate educational rewards will serve as incentives, encouraging the students to "keep going" in their learning careers!

Parents, this is an excellent program to give your student that extra "push" s/he needs for gaining success in reading and math! We want to have your children participate in these exciting and rewarding activities. If you would like to have your student participate, please call Steve Doerksen at 907-481-6208.

**Program Description:**

- Number of years in business providing supplemental services: **0** \_\_\_\_\_
  
- Providing service in content areas: *(Check all that apply)*
